

PRODUCT DESCRIPTION - FIBREGLASS LONG TAPE - FU100EE 100M/330FT

The Komelon 100m/330ft Long Fibreglass Tape measure has a heavy-duty ABS frame built to last. The 3 x high speed gear mechanism and dual rollers, to guide the blade and prevent twisting reduce work time. The case also has shock absorbing rubber bumpers.

The double coated fibreglass blade ensures the lifetime use of the blade making your measurements true. The blade is made of 16,000 strand fibreglass to prevent stretch and it's the only fibreglass tape on the market to have Class 2 accuracy.

The Komelon fibreglass blade can withstand the highest tencile strength and also guarantees lifetime use. The coating helps it to last up to 15 times longer than standard tapes. It also features a true zero claw end hook.

Length: 100m /330ft. Blade Width: 13mm. Accuracy: EC Class II

MAIN PRODUCT FEATURES

Class II Accurate - Guarantees accurate measuring

16,000 Strand Fibreglass Tape - Prevents stretch to keep tape accurate, resistant to corrosion and non-conductive.

Double PVC Coated Blade - Signicantly reduces wear and abrasion for longer tape life

Gear Driven Handle - Ensures high speed accurate retrieval of tape to save time on the job

2 Internal Steel Rollers - Guides blade retrieval, reduces friction and prevents twisting.

PRODUCT SPECIFCATIONS

EAN: 8803005166618

SKU: FU100EE

13mm Wide Blade

100m/330ft Metric & Imperial

Weight: 1.1kg

Height: 450mm Width: 320mm Depth: 80mm

ADDITIONAL SPECIFICATIONS - FU50EE 100M/330FT

Feature	Benefits
Class II Accurate	Guarantees accurate measuring
Fibreglass blade keep tape accurate.	Made from 16,000 strands of fibreglass to prevent stretch to
Double PVC Coated Blade	Reduces wear and abrasion for longer blade life
Gear Driven Handle the job	Ensures high speed accurate retrieval of tape to save time on
2 Internal Steel Rollers	Guides the blade to prevent twisting.
Heavy duty ABS plastic case	Durable, built to last
Metric & Imperial Blade Markings centimetres or feet and inches	Allows accurate measurements to be taken in either metres &
Dual Printed 2 Colour Blade imperial measurements	Tradesman can use one side for metric and the other side for
Soft grip handle	Comfortable in the hand during prolonged use
True Zero End Hook measurements	The hook moves for accurate internal and external
Steel Claw End Hook design	Durable, built to last
30m/100ft, 50m/165ft, 100m/330ft blade lengths measuring jobs	Selection of lengths to suit most long distance
Blade width - 13mm
