

## PRODUCT DESCRIPTION - LED TAPE PLD85E 8M/26FT

The Komelon LED LIGHT Tape Measure is available in 8m/26ft with a 25mm wide blade. It has an ultra compact, ergonomically designed ABS case with a moulded rubber grip for increased comfort. The compact case sits perfectly in the palm of your hand.

Complete with a rechargeable LED light to illuminate the white blade. The LED has an auto shutoff after five minutes to reduce energy consumption and prolong battery life.

The Komelon LED Light Tape Measure has an integrated rechargeable battery and comes complete with a USB to USB micro charger lead for lightning fast charges. A full charge will allow for two hours of continuous runtime.

The blade offers reverse markings and has been Dura NY nylon coated to last up to 15 times longer than conventional blades. The dual printed blade has metric and imperial markings with rounded edges for added comfort in use

## MAIN PRODUCT FEATURES

Ultra Compact White ABS Case - Lightweight strong outer case prevents impact damage to tape blade & mechanism

Powerful LED Light - Illuminates Blade in Lowlight conditions for ease of measurement reading

Black Print on White Blade - Improves readability of measurements

Dual Printed Blade - Measurements can be taken above and below the blade, ideal for vertical measuring

Auto LED Shut Off after 5 Minutes - Reduces energy consumption & prolongs battery life
